

Current groups

Group name	Stated purpose
OGAG Engagement	Helps ensure OGAG is reaching a wide variety of stakeholders who may want to participate in discussions related to Open Government. This includes thinking about locations of meetings, external communications and outreach to specific groups.
Information Access	Works on making information accessible to the public and across government. This includes areas like open data and FOIA. Importantly, the group will consider information access under the same guidelines imposed under FOIA for the release or withholding of records.
Partnership & Collaboration	Looks for ways to open up policy making in DC government to the public. This includes events like hackathons, as well as design challenges – events that invite the public to be part of solutions to problems facing government.
Transparency & Understanding	Looks for ways to make the increasing amount of information available to the public not only transparent, but also understandable. This includes thinking about how the public accesses information as well providing resources to help residents navigate and understand what is being presented.

Proposed groups

1. Are these the right committees?
2. How should they be structured?
 - a. Is there a committee chair/lead?
 - b. How many people do we need on each committee?
 - c. What if there is a lot of interest in one, but none for others?
3. How will we report on committee activity?
4. How will we hold ourselves accountable for accomplishing specific tasks and broader goals?
5. How can we involve the public?

Open Meetings/FOIA

Area(s) of focus	PII - open discussion about how to involve OGAG, public in discussion about policies (Government-wide, agency-specific)
Three long-term priorities	
Three short-term priorities	
Action items	
This committee will:	

Agency Outreach

Area(s) of focus	
Three long-term priorities	
Three short-term priorities
