Proposed Winter/Spring Focus of Work for Open Government Advisory Group

The following items would be the focus of the OGAG group and subcommittees over the next three to four months:

1. Recommend the Mayor sign the new Data Policy
2. Evaluate DC's progress on the implementation of the data policy
3. Recommend specific data sets that should be prioritized for placement on DC's Open Data Portal
4. Create a FIOA checklist to help residents know when and how to use FOIA
5. Host a code fair (during Sunshine Week) where DC agencies can be paired with members of the public to help solve data needs
6. Review OCTO's data publisher toolkit to ensure openness and transparency
7. Conduct data literacy trainings for the public
8. Pilot a public data user group [example: https://www.wprdc.org/data-user-groups/]

Items will be reviewed on a quarterly basis and the group will determine at that time if an item has been completed, is still in progress, or if new items of focus should be added.
